Hazardous Noise Awareness Training

Mandatory Training for Persons Controlling Noise Risk

Online Course Information Sheet

Who is this Course for?

This online training course is for all persons who have responsibilities and/or accountabilities for the control of hazardous workplace noise.

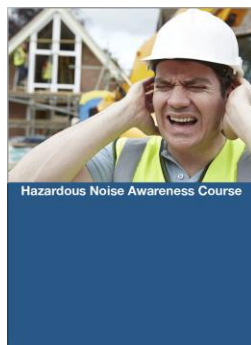

Course Details

This course is about:

- Defining what is Hazardous Workplace Noise.
- Understanding what are the associated health risks arising from exposure to Hazardous Noise.
- Interpreting the legislative requirements for the identification and control of Hazardous Noise.
- How to identify, assess and control hazardous noise within the workplace, and;
- The approaches used to monitor the effectiveness of noise controls used within the workplace.

This course is based on the Australian Model Work Health and Safety Laws, and relevant Model Codes of Practices relating to the control of Hazardous Workplace Noise. The course has been developed in collaboration with leading occupational hygienists and assessed by an occupational health and safety systems auditor as complying with the Hazardous Noise awareness training requirements under Model WHS Laws.

Note: It is the employer's responsibility to ensure the training is appropriate and meets their needs.
