Hearing Protection Awareness Training Mandatory Training for Users of Hearing Protection

Online Course Information Sheet

Who is this Course for?

This Hearing Protection Awareness Training Online Course is for both workers, supervisors, line managers, PCBUs and Officers that are required to provide or use Hearing Protection in the workplace.

Certification

Once successfully completed, learners will be issued with a Certificate of Completion. Certificates can be downloaded via their account profile.

Please be aware Students will **not** be provided with a Statement of Attainment after completing this course.

Course Details

This course is about:

- Defining what is Hazardous Workplace Noise and the reasons for wearing Hearing Protection.
- How to select Hearing Protection when working in workplaces where there is Hazardous Noise.
- The steps required to ensure the correct use and fitting of both ear muffs and ear plugs.
- The critical processes that are required to be followed to ensure Hearing Protection is easily accessible, maintained and ready for use, and;
- Detailing the core components of a Hearing Protection Program that will ensure a sustainable program of hearing protection within the workplace.

This course is based on the Australian Model Work Health and Safety Laws, and relevant Model Codes of Practices relating to the control of Hazardous Workplace Noise and Australian Standard AS/NZS1269.3 Occupational Noise Management - Hearing protector program requirements. The course has been developed in collaboration with leading occupational hygienists and assessed by an occupational health and safety systems auditor as complying with the Hazardous Noise awareness training requirements under Model Work Health and Safety Law.

Note: It is the employer's responsibility to ensure the training is appropriate and meets their needs.

The best Hearing Protection Awareness Training Online.

Average completion time is 60 minutes.
